EURECA-LOGISTIC

Eureca-Logistic: Benefits of Partnership

- »» Eureca-Logistic is an integrated logistics and customs provider majoring on serving international trade in the North-West of Russia across the borders with Finland and the Baltic States.
- »» Customs classification, registration and clearance without any exceptions as to the cargo nomenclature
- »» Assistance obtaining exemptions from customs duties and VAT for in-kind contributions to charter capital
- »» Assistance obtaining customs rulings and classification decisions from the Federal Customs Service
- »» Warehousing and bonded terminal service

Import of complex technological equipment

Obtaining a classification decision to ensure reduced customs duties and simplified customs procedures

- »» Example: Import of a Production Line
- »» Cost of equipment: EUR 38 mln
- »» Project duration: scheduled deliveries in the course of 12 months
- »» Customs duties and taxes with the classification decision was reduced from to EUR 6,5 mln to EUR 1,3 mln

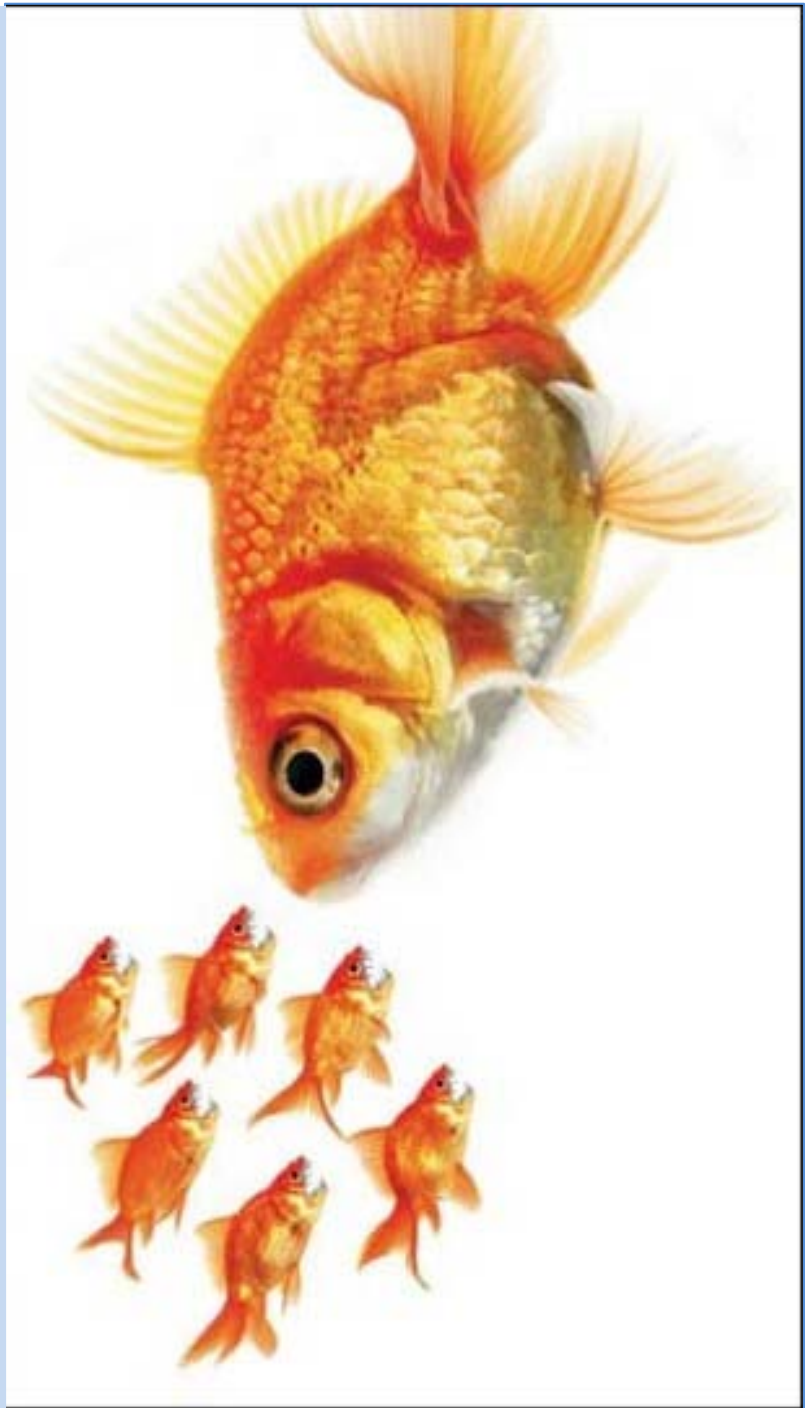

We work with smallest and largest shipments alike.

We work on long-lasting projects of import of complex technological equipment serving clients like Nord Stream.

On the other hand we have become a partner in Itella's Nordic Groupage service to Russia
